Full job description

Our rapidly growing cardiology department is seeking a dedicated and skilled full-time **Cardiovascular Technologist** to join our dynamic team. As we expand our services, we are looking for a professional who is passionate about providing exceptional patient care and advancing diagnostic excellence. We offer competitive pay and a serene working environment to support your professional growth and well-being.

Medpoint is a preventative health care centre and is dedicated to helping our clients make health and lifestyle choices that will aid, and even help prevent, injury and disease. As part of Medpoint's multidisciplinary team that includes physicians, specialists, kinesiologists, dietitians, and nutritionists, the CVT will play a key role in assessing clients.

What your day will look like:

- Performing all cardiac testing techniques including electrocardiogram (ECG) testing, exercise stress testing, and Holter fittings in compliance with CSCT guidelines;
- Scanning, monitoring, and analyzing Holters;
- Completing administrative duties to assist with clinic flow;
- Ensuring all quality control assessments are performed as required;
- Taking all reasonable precautions and working in compliance with related policies, health and safety legislation and best practices;
- Following procedures for proper equipment maintenance while ensuring they are completed in accordance with department standards;
- Applying knowledge of the components and function of cardiac monitoring devices;
- Analyzing recordings as they relate to patient symptoms and medications;
- Identifying and reporting on conditions requiring physician attention;
- Maintaining a database file of patient information, events, and monitoring periods and transferring all data to Medpoint's EMR system;
- Participating in meetings as required; and
- Completing other duties as assigned.

Requirements:

- Completion of a Cardiovascular Technology diploma recognized by the Canadian Society of Cardiology Technologists

- Active and in good standing with (or eligible for) membership with the CSCT.
- Holds current First Aid & CPR certification.
- New graduates are welcome to apply!

What we are looking for:

You must demonstrate mature judgement, maintain patient confidentiality, work independently, and be comfortable working within a multidisciplinary team environment. We are also looking for someone comfortable working on computers and EMR software, able to multi-task, and strong organizational and interpersonal skills. You must have professional communication skills and be comfortable providing empathetic telephone interactions with patients, and in-office with physicians and coworkers.
